

Introduction: The PowerSchool Parent Portal offers parents the opportunity to access real-time student information, such as grades, attendance and class information. An Internet connection is the only requirement to use this tool. All student information is delivered securely and can only be viewed by using the username and password information provided by your child's school.

The Power Parent portal may be accessed by entering the unique Username and Password described below for each of your children in our schools.

Accessing the Parent Portal:

1. Launch your internet browser (ie: Internet Explorer, Firefox, Safari).
2. A link to the **PowerSchool Parent Portal** can be found on the Lakeview Public Schools web page, www.lakeview.misd.net or you can go directly to www.lakeview.misd.net/public.
3. At the Parent Login Screen enter the unique login Username and Password that was provided to you by your child's school and click **ENTER**.

4. Do not forget to **Log Off** when you have finished.
5. **Keep your user name and password in a safe place.**
Your password protects your information. Do not share it with anyone.
6. Please be aware that grades will not be available / viewable until the teacher has recorded them electronically. **Please be patient with this process.... teachers are expected to post grades in a timely fashion but it is not realistic to expect teachers to enter grades on the same day the assignment is due/test is taken.**

TIP:

Blue words and numbers (grades, comments, assignments) are hyperlinks to more detailed information. If it is **blue**, it is "clickable" and provides additional information.

Parent Menu:

Upon logging in to Parent Portal, you will see the following menu bar at the top of the screen.

From this menu, parents have access to:

- Grades
- Attendance
- Set up for Email Notifications
- School Announcements (Bulletins)

The default screen that appears is the Grades & Attendance screen which displays the current term's grade and attendance data.

If you have questions regarding attendance information, please contact the building's attendance office.

NOTE:

Attendance and grades for **high school off-campus classes** are not updated or entered in PowerSchool until the end of the semester. If you want information regarding your son or daughter's performance in these classes please contact the teachers of those programs directly.

Click on a teacher's name to email the teacher directly, provided your computer and email account are set up properly. Clicking on the teacher's name should place you in your e-mail system. If you hover over a teachers' name with your mouse, their email address will be displayed at the lower left corner of the browser window.

1(A)	Speech	Lura, Colleen R	Accepts responsibility for own actions.
2(A)	Open Media	Accatino, Steve	

If you have questions regarding any comments, contact the teacher directly – teacher contact information is on the district website.

Daily Bulletin Screen displays school announcements for previous, current and following day.

Communicating with Teachers

PowerSchool is a tool to increase communication between parents and teachers. We are excited at the potential of this new application, but realize that with this comes a shift in the way we work and communicate. We believe that along with teachers, it is also important for parents to become educated in the process of grades and assessment. Before PowerSchool, parents received grade information only upon request or at scheduled times. With the PowerSchool Parent Portal, it will now be possible for parents to check grade information at any point in the year. With that in mind, parents need to know and understand the following:

1. Each teacher has his or her own grading system. Some teachers work on a straight points system while others weight the scores according to assignment categories (tests, quizzes, etc). Some give grades for class participation while others do not accept late work. Our teachers inform all of their students at the beginning of the course, year, or semester of their expectations and their grading system. For this reason, it is very important for parents to read the grading policy provided by each teacher.
2. Grades can change dramatically in the first few weeks of each marking period. In the beginning of each term, you may see zeros or large shifts in the class average of your child. When there are only one or two assignments in the grade book, a low or high score can make a dramatic change in the overall grade average. The grade book instantly recalculates the overall grade as every assignment is entered.
3. Teachers need time to grade projects, assignments and tests. Each day teachers are expected to have new material and lesson plans ready for class. Many teachers are also involved in extracurricular activities that take time to plan and attend. With that in mind, teachers do need time to get the assignments graded and inputted into the system. For example, a teacher will not be able to post grades for an essay assignment the next day when he/she has 25 students in their class. We have asked our teachers to try to have all grades entered into PowerSchool within a reasonable period of time. Please be patient as it does take time.
4. Teacher email links are available in PowerSchool, or on our district website. You may communicate with the teacher through email or by phone. If you choose to use email, realize that due to the nature of the job, most teachers have little time to respond to email during the school day since it is expected that teachers be engaged with students. Therefore, do not expect an immediate response to email messages. However, if you do not receive a response from the teacher within 24-48 hours, please contact the building's main office.

Student Grade Concerns

Although our staff is always willing to talk with you about your son's or daughter's progress, we have found that following the steps below can often resolve your concerns:

1. Talk with your child first. Ask them what the situation is with their grades.
2. Read the grading policy of the teacher. This may answer the question of why the student has received the grade or explain how the assignments add up to the current average.
3. Check to see if there is an assignment description. In the Class Score Detail screen, if the assignment is listed in blue it will have more information about the assignment. This may help you in understanding what was involved or expected for a particular assignment.
4. Check the date of the assignment. An assignment handed in late may receive deductions from its score. Remember - early in the marking period, overall grades can fluctuate dramatically because of the lack of assignments in the grade book.
5. See if there are any missing or late assignments that could be affecting the overall grade average.
6. If none of the above helps, contact a teacher for clarification about grades by direct e-mail or phone.
