EMERGENCY POLICY

Each site practices fire drills, tornado drills and lockdown drills during the school year in order to be prepared for emergency situations.

All exterior doors are locked at all times for the safety and security of all children. Parents are expected to use their FOBs or the buzzer system to enter the school building during latchkey hours.

In the event that school needs to be closed due to a building emergency (evacuation, power outage, water main break), children will be relocated to a predetermined location which is established through the district's Crisis Plan. The exact locations are known by staff but not available to the public for security purposes.

In an emergency where latchkey would need to close early, we will make all efforts to contact parents first. If we cannot, the person specified on the Child Information Record will be asked to come for the child. Please keep this Information Record up-to-date. The emergency number must be someone who can arrive to the school quickly (15 minutes or less). Parents should notify staff if their child has any special needs that should be addressed during an emergency.

If Lakeview Public Schools is closed due to bad weather, latchkey services will not be available. You can find school closing information on the district website at www.lakeview.misd.net or check local news programs for school closings.

SEVERE WEATHER – TORNADO

Latchkey employees will lead children to predetermined locations in the school in the case of a Tornado Warning. If parents are picking their child up, they are encouraged to stay in the building during dangerous weather.

CRISIS PLAN – LOCKDOWN

Each building in Lakeview Public Schools has a crisis plan that includes lockdown protocol. These plans are known by staff but not made available to the public for security purposes.

If the school cannot be reached during a building emergency, then a district representative can be reached by calling (586) 445-4000.
